### Technical Data

#### Product Characteristic

Thickness DIN EN ISO 9073-2		mm	approx. 1.0
	3-Layer Product, rolled		
Available Colors Nonwoven	blue, green, white, grey		
	Impermeable to Water		

#### PE-Film Characteristic

	LPDE-Film, acrylate resin		
Color	transparent		
Thickness		μ	20/25
Density		g/m <sup>3</sup>	0.925
Water Solubility	insoluble		
Melting Point	194-302 °F		
Flash Point	approx. 644 °F		
Decomposition Temperature	>572°F		

#### Dimensions

Width	wrapped	in	36
Length		ft	100/150/300
Grammage ± 10% DIN EN 29 073T.1		gsm	170
